

International Science and Research Seminar
FP7 & International Cooperation

TU Wien Experience in International Research Projects

Siegfried Huemer

Vienna, 18 June 2009

Tasks of the EU Research Management Unit at the TU Vienna

- EU funding instruments: financial information and project management;
- EU legal support: Grant Agreement and Consortium Agreement;
- EU research mobility: Marie Curie actions, EURAXESS network.

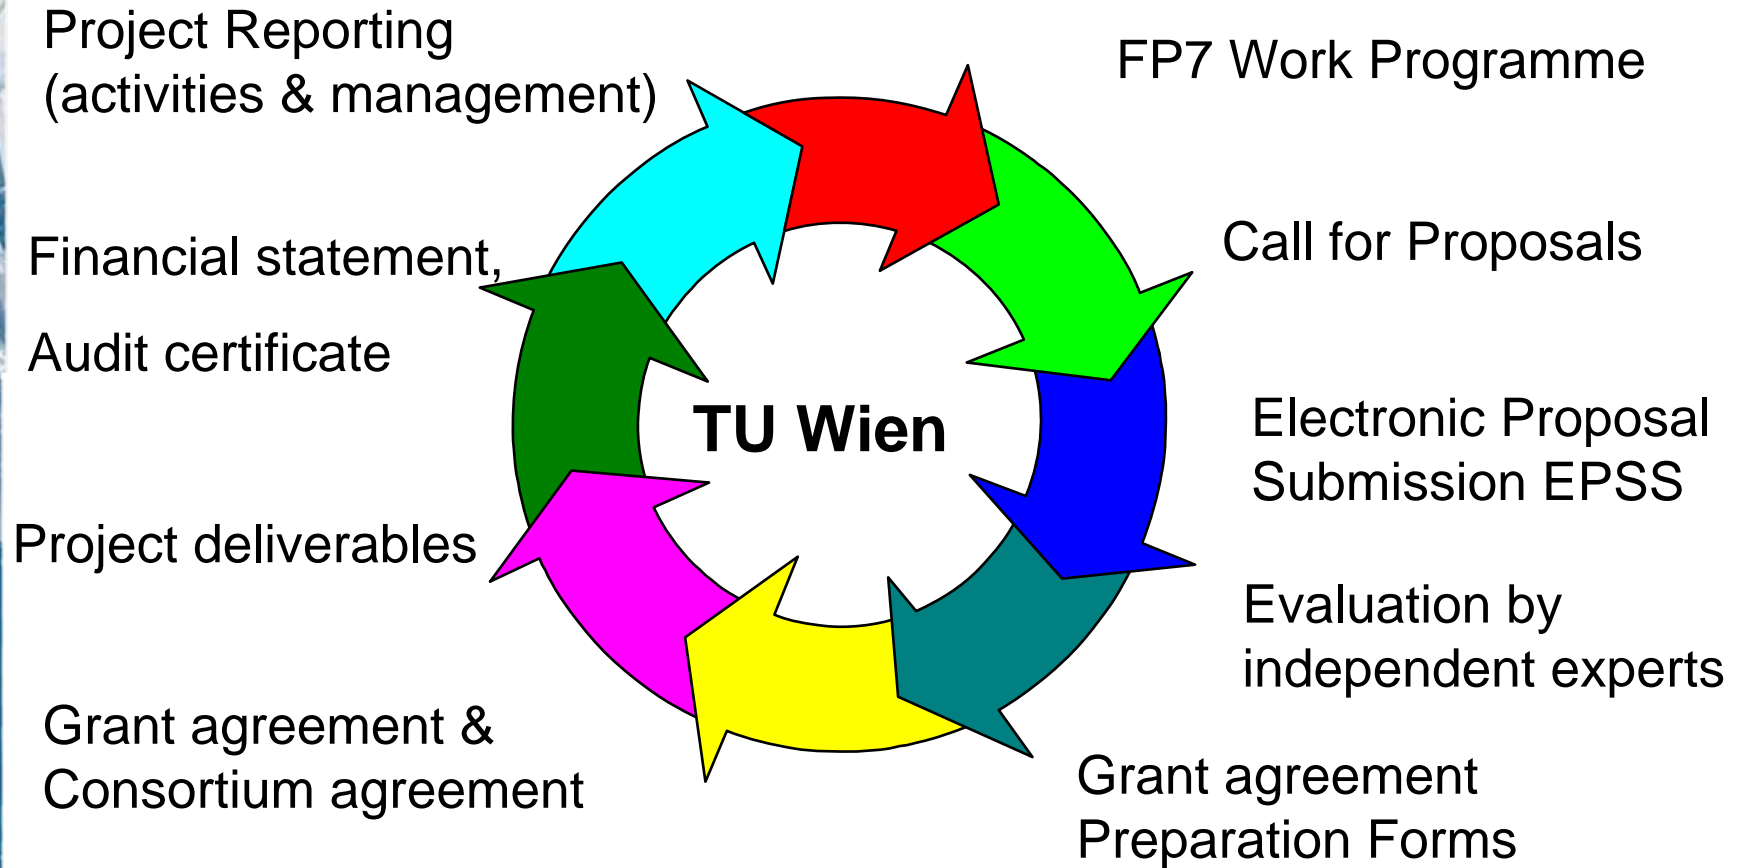

International Project Development

- Identify the appropriate research area;
- Create a complementary consortium;
- Define the roles of participants (coordinator, beneficiary and third party);
- Calculate the total project costs;
- Search for public funding.

EU Project Management Support

- EU Individual Proposal Consulting (administrative forms, scientific & technological content, implementation and impact);
- EU Project Management (financial statements, auditing and legal documents);
- International Project Monitoring and Statistics.

EU Project Life Cycle

Preparation and Submission of Proposals (EPSS)

Online Submission

The recommended method in FP7 is ELECTRONIC ONLINE PROPOSAL PREPARATION AND SUBMISSION. The Electronic Proposal Submission Service (EPSS) is an internet-based application providing a secure work space for a consortium to prepare and submit a proposal jointly. Access requires only a standard web browser, no special software has to be installed on the users' computers. For all details see the [EPSS User Manual \(PDF\)](#) and the [EPSS Online Frequently Asked Questions \(FAQ\)](#).

N.B. Please note that after 5th May 2008 for all newly published calls you will be able to use your Participant Identification Code (PIC) in your electronic proposal preparation and submission. For more information on how to get a PIC, please visit the 'PIC' section.

N.B. You should read the call fiche, work programme and guide for applicants for the call you are interested in prior to using the EPSS.

N.B. The EPSS tool can also be used to respond to "competitive calls" issued by FP6 ongoing projects and by FP7 projects.

For additional information, please contact the [EPSS HELPDESK](#), or by phone +32 2 233 3760.

Click on the activity area title below to access all its open calls.
Then **select your call and the funding scheme** in which you are interested.

Recommendations for a successful proposal

- Start preparation of proposal early
- Face to face communication (researcher to researcher)
- Administrative & management support
- S&T quality, implementation and impact
- Keep it simple and smart
- Experienced coordinator
